>>>House Bill 1514 will help honorably discharged veterans of the United States Armed Forces more easily prove their status. The bill takes effect on September 1st, but because the DPS will need to establish rules as and develop software for the new license, it may not be available until several months later.

When the development is complete, veterans will simply have to present proof of honorable service at the DPS office when they renew their license in order to have the endorsement added.
